ABOUT US

Phipps Global is a dynamic and comprehensive factory-direct development company specializing in serving the needs of hotels, residential properties, and commercial projects. With a global reach, we procure materials from over 18 countries worldwide, tailoring them to meet your specific project requirements. Our close partnerships with factories grant us access to priority production lines, ensuring timely delivery and unwavering support.

Our client base includes builders, architects, designers, hoteliers, and general contractors in the multifamily, affordable housing, commercial, residential, and hospitality sectors. With our deep understanding of production processes, sourcing locations, and pricing, we empower our clients to achieve their project goals within their budgetary constraints.

JAKE PHIPPS

OUR SPECIALITY PRODUCTS

PHIPPS
GLOBAL
MANUFACTURING PROFESSIONALS

Mass order: 60 Days

7. SHIPPING AND DELIVERY

We coordinate every aspect and keep you informed about your container's status throughout the shipping process and coordinate the delivery to you jobsite.

AIR: 5-7 days per shipment

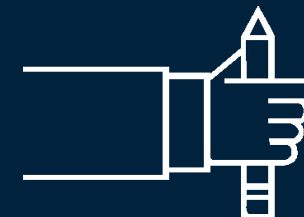

Ocean: 30-40 days per shipment

2. TAILORED PRICING

We select the most suitable factories from our extensive network of manufacturing partners. This enables us to create a customized proposal that perfectly aligns with your project's unique specifications

7-10 Days Aprox.

4. SHOP DRAWINGS

With the proposal approved we kickstart the shop drawing phase.

7-12 Days Aprox.

6. QUALITY CONTROL REPORT

Prior to shipping your goods, we provide you with a comprehensive quality control report. Your approval is vital, and we ensure that your order meets the highest standards of quality.

Model rooms: 1-2 Days

Mass order: 2-5 Days

At Phipps Global, we take pride in our structured and client-centric workflow, ensuring that every step is tailored to your project's needs and executed with precision and care. Your vision, our commitment.

OUR PRODUCTION QUALITY CONTROL

PHIPPS
GLOBAL
MANUFACTURING PROFESSIONALS

QUALITY REPORT

We implement a comprehensive quality control process before production to guarantee every piece meets your exact vision. This includes:

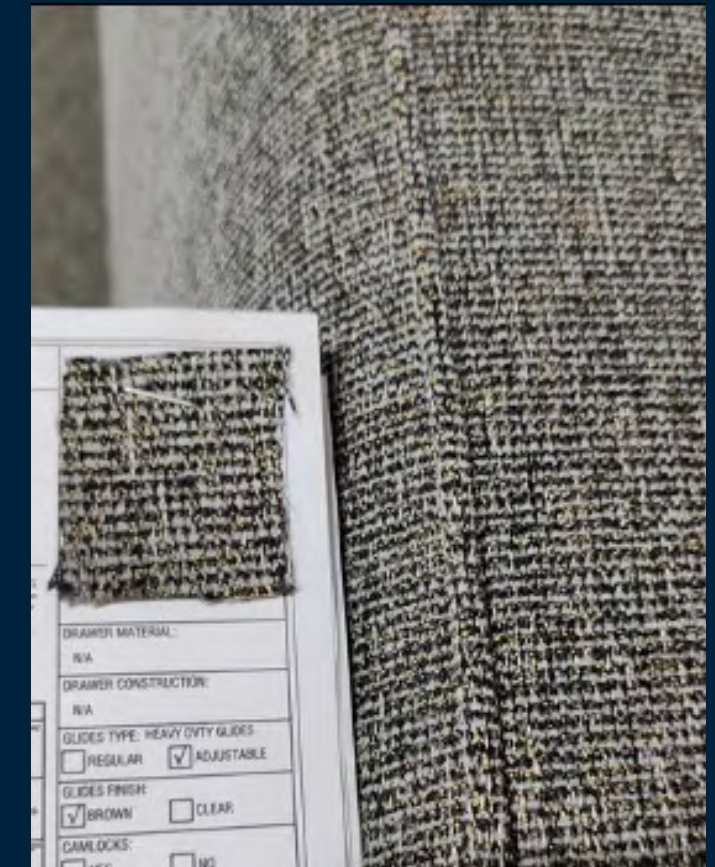

- **Dimensional Accuracy:** Measure all components to ensure they precisely match the approved drawings.
- **Material Verification and finish Consistency:** We verify that all fabrics and materials strictly adhere to the specifications and drawings.
- **Precise Assembly:** We ensure all pieces are meticulously aligned and assembled according to the designated drawings, resulting in a perfectly seamless final product.

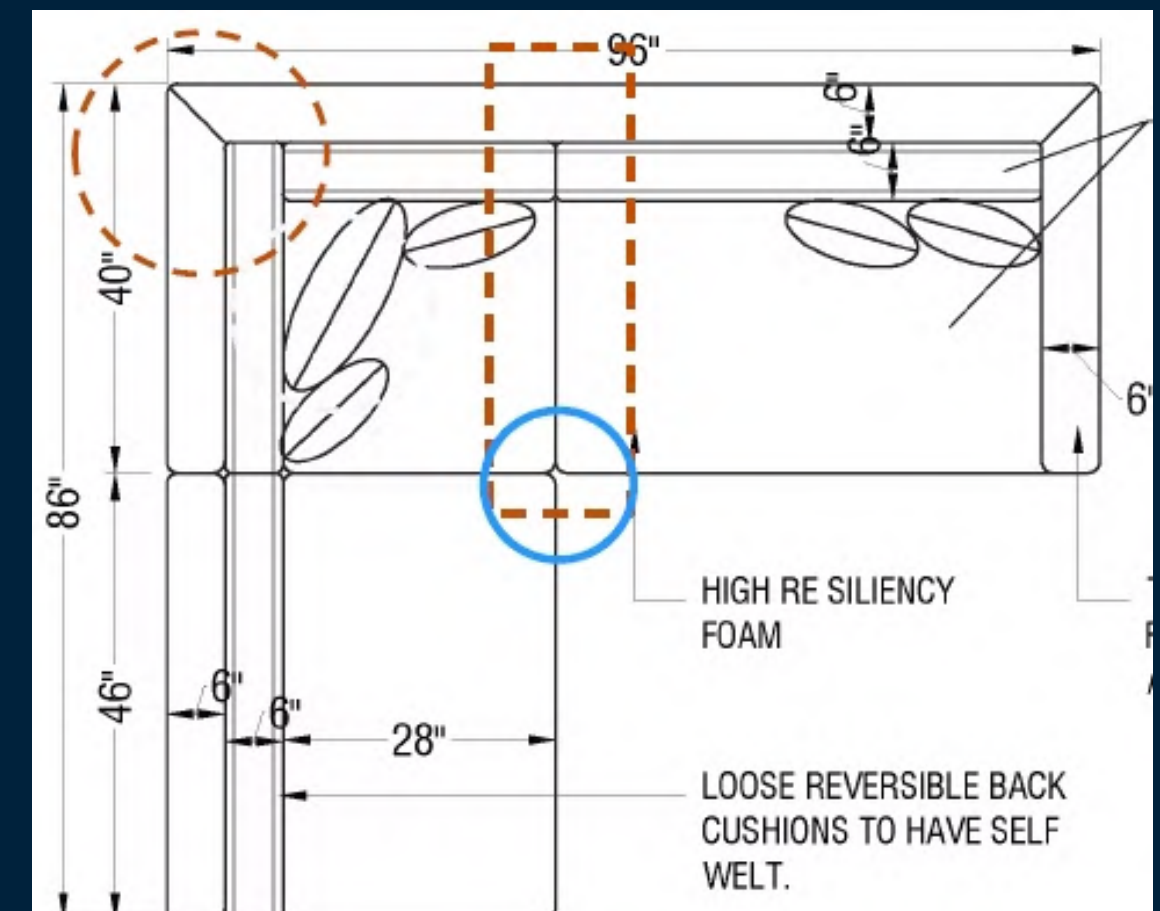

DIMENSIONS VERIFICATION

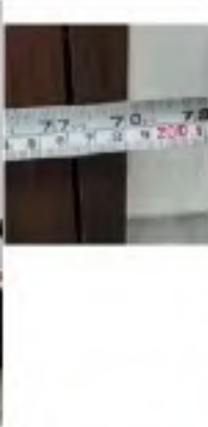

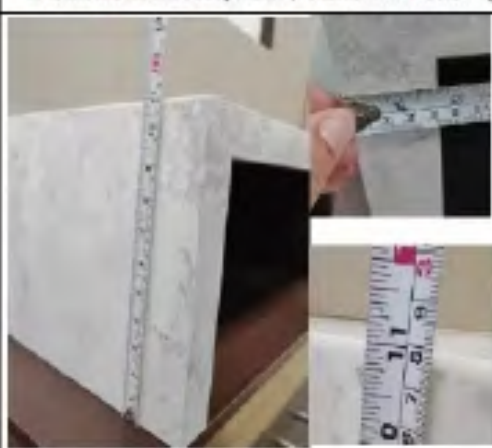

DIMENSIONS VERIFICATION

MATERIAL VERIFICATION

			
Door pull size details		Base: The measurement is 3", consistent with the drawing 3"	
			
Base: The measured height is 6", consistent with the drawing 6"		More size of Power	
			
Overall: The measured width is 78", consistent with the drawing 78"		Overall: The measured depth is 24", consistent with the drawing 24"	
			
Overall: The measured height is 25", consistent with the drawing 25-34"		Stone: The measured height is 11", consistent with the drawing 11"	
		Stone top: The measured width is 75", consistent with the drawing 75"	

QUALITY CONTROL REPORT

We compare all finishes with the control samples you've approved, guaranteeing consistent.

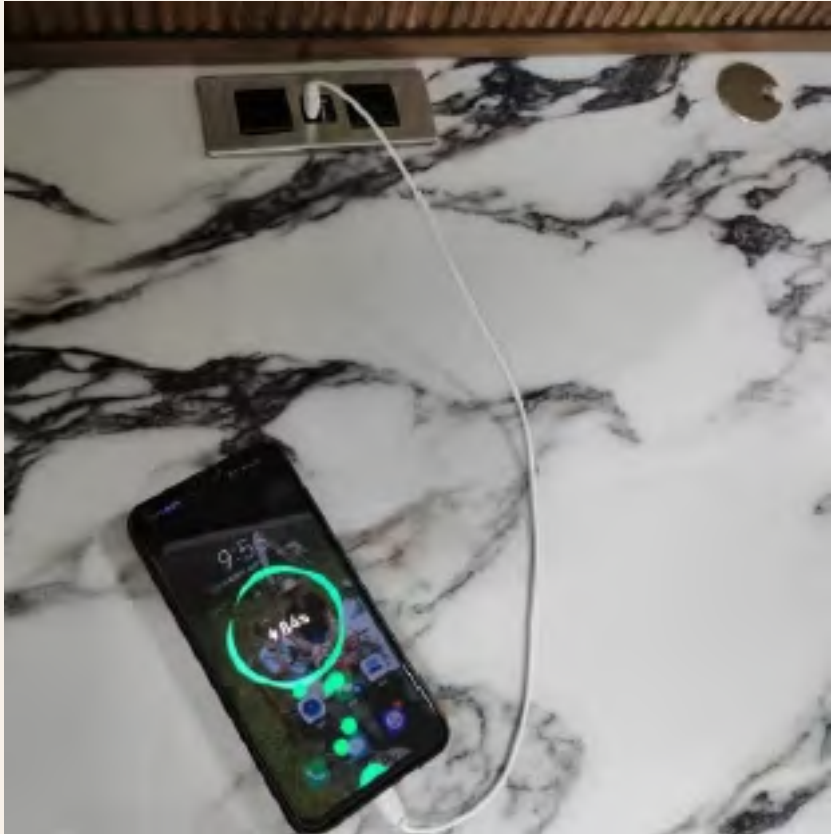

We carefully measure everything to match the approved drawings exactly
